

HAPPY Fathers Day

JUNE NEWSLETTER

MAY RECAP

What a wonderful month we have had here at The Terrace. We celebrated Cinco de Mayo with homemade salsa, chips, and margaritas, which made for a nice afternoon! Next, we celebrated Mother's Day. It was a beautiful day! We served homemade danishes and cupcakes that we worked on together and set up in the hallway along with coffee and punch. It was a very special day celebrating all of the amazing mothers here.

Every Thursday this month we worked on a group "popsicle quilt." It is made up of hundreds of beautifully painted and decorated popsicle sticks and will be displayed somewhere in our building. I think we had a lot of fun with this project.

We have been slowly able to reintroduce entertainment back into our building. We had a bird expert join us out on the patio, where he told us all about the birds in our area and many interesting facts about them. We also had Mark DeCracker and Shawn Roberts in to sing and play guitar for us.

Our garden group had been busy getting vegetables and flowers started. They look beautiful and everyone did such a nice job.

I hope you have all been able to enjoy this beautiful weather as much as we have and we are looking forward to a nice summer.

JUNE LOOK AHEAD

We are looking forward to a beautiful summer! We have many fun crafts planned. We will be making watermelon door hangers to put on display, as well as a patriotic group wreath project to display on our front door.

We will enjoy many of our activities outside while we can, such as our strawberry social, Hawaiian day party, happy hour, cornhole and horseshoes. We will move our ice cream social every Wednesday out to the patio as well.

For Father's Day, the guys will get together for a nice morning with coffee and donuts from Dunkin Donuts which they always really enjoy.

Wishing all of the Dads out there a wonderful Father's Day!

I could not remember a summer growing up when I did not attend a carnival, a circus, or an amusement park. It was all part of summer. The following is the story of the beginnings of the Barnum and Bailey Circus and the man who created the "Greatest show on Earth"

P.T. Barnum

In June of 1835 P.T. Barnum began his first tour of the U.S. with his circus, later coined "The Greatest Show On Earth" .

Barnum had a variety of businesses as a young man and was aggressive about fighting the Blue Laws, such as no liquor on Sunday, no gambling. Barnum learned quickly to haggle or lie to get what he wanted.

Barnum became a showman in 1835 after his lottery business was shut down. Leaving for NY, Barnum started his 1st exhibit which consisted of an elderly, blind black woman who he claimed was 160 years old, and the former nurse of George Washington. The woman died the following year and was found to be only 80 years old.

In 1841 Barnum bought a famous museum which he named Barnum's American Museum which displayed animals, performers, curiosities and outright hoaxes such as "FeeJee mermaid. A sewn together monkey and fish. He justified his hoaxes by claiming it was a way to attract paying guests. Barnum toured with his main acts including "Colonel Tom Thumb, a midget who was claimed to be the world's smallest man. The museum was so successful it drew 400,000 visitors a year by 1846. His museum burned to the ground in July of 1865. A new museum was erected, but that also burned in 1868. Barnum eventually ran theaters to show Circus animals until animal rights and dwindling profits caused it's doom in 2017.

Barnum suffered a stroke in 1890 and died in April of 1891. His autobiography sold over a million copies.
